

5830 STUDENT FUNDRAISING

The Board of Education will limit the raising of funds by and from the students of this district in order to protect students from unnecessary pressures and the instructional program from disruption.

“Student fund raising” means the collection of money by students, on or off school premises, for any purpose associated directly or indirectly with the school district. Fund raising for activities/organizations not directly related to the school district will not be permitted on school grounds.

Students may collect money on behalf of approved school organizations, provided the fund raising has been approved by the Principal and the Board of Education.

No fund-raising activity involving door to door solicitation shall be permitted.

No student will be permitted to collect money on school premises or at a school-sponsored event for the student's own benefit.

The Superintendent shall develop regulations regarding student fund raising that establish times and places in which student fund raising may be conducted and ensure adequate accounting of funds collected. The Building Principal shall distribute this policy and review its contents and the Superintendent’s regulations with each recognized student organization.

Adopted: 17 March 2010
