Independent Living

Mrs. Lisa Easterling would love to take a moment and brag about her students in Independent Living! These talented students re-designed the space in their classroom and created a 4-panel literature-themed visual! The transformation was amazing: drab to DANGGGG! Anyone stopping by A109 will find a scene from *Beowulf*, several of Edgar Allen Poe's short stories, William Shakespeare's *Macbeth*, and "The Legend of Sleepy Hollow" by Washington Irving. Posing for the picture with pride are **Josiah Dale** (12th grade) and **Ian Motluck** (9th grade). All are welcome to come share the joy created when talent meets creativity and great instruction.

HBCU Fair

The WTHS Guidance Department, in coalition with Eagle's Landing, sponsored a trip for nineteen students to the HBCU Fair at the Philadelphia Mann Center on Saturday, May 20th. Five staff members chaperoned the students on their journey. Despite the inclement weather, the event was a great success with an awesome turnout of hosts and participants from the area surrounding the Delaware Valley area. At the fair, students walked around to gather information from the various colleges, participated in the family outreach activities/programs, watched live performances of drill teams, dance teams, choirs, and marching bands.

Overall, this event not only exposed the students to various educational opportunities, but allowed staff to build meaningful relationships, while supporting them in their postsecondary pursuits. Some of the HBCU's that were in attendance were Allen University, Benedict College, Central State University, Cheyney University, Community College of Philadelphia, Coppin State University, Delaware State University, Fisk University, Florida A&M University, Grambling State University, Harcum College, Howard University, Jackson State University, Johnson C. Smith University, Lincoln University, Meharry Medical School, Morehouse College, Morgan State University, Morris Brown College, North Carolina Central University, Oakwood University, Paine College, Stillman College, Tuskegee University, Wilberforce University, and Winston Salem State University. Graphic Design & Photography Club

The WTHS Graphic Design and Photography Club had the incredible opportunity to visit Rowan College of New Jersey on April 20th to tour the CGA (Computer Graphic Arts) Department as well as other parts of the campus. All of the three CTE classes, (Introduction to Digital Design, Digital Imaging I and Digital Art Photography) are aligned with classes in Rowan's Graphic Arts program as part of the Dual Credit CTE program. Students were ushered into an existing lesson titled "The Art of Font" and thus had the privilege of teaming up to create a face made out of typeface characters. Fortunately, WTHS students were very familiar with the Adobe Illustrator since that is currently being used in their classes at the high school, and thus able to contribute greatly.

Mini Zoo

One of the LEAST kept secrets among WTHS students is that Ms. Mullin, resident Marine Biology and Zoology teacher, is super cool for many reasons, but especially for her mini zoo-like classroom environment with all sorts of plants and animals in various stages of growth. Ms. Mullen is a firm believer in practicing what she wants her students to learn, absorb and transcend. Walking into her classroom is like stepping into another world, one that is magical in all the life forms it showcases. She currently has 4 Australian White Tree Frogs, 4r leopard geckos (Duckie, Tria, Petrie, and Little Foot), 3 Crested Geckos (Mario, Luigi, and Harlow), a tank of land snails, 2 anoles, 2 fish tanks, an aquaponics tank, and the star of the classroom the two axolotls, Coop and Luce. At the moment, the zoology class is getting the opportunity to watch the cycle of life, as Ms. Mullin's axolotls laid eggs which became fertilized. She has never kept a spawn from her axolotls, but this time the timing of the egg laying was perfect for what the students are learning in the classroom. After Coop laid her eggs, students and teacher waited anxiously to see if Luce fertilized them. Sure enough, two days later, students noticed what were once white dots inside the translucent eggs changing shapes, indicating it was time to move the eggs to a new enclosure and sit watch. Each day, the zoology students would peek into the tank of eggs to see the new happenings unfolding and discuss their conclusions and the progress. Finally, when 2 weeks later, 20 itty bitty axolotls emerged from their encasements into the tanks, a collective sigh of relief and exclamations went up in M104!!! The current trend is watching to see how many will survive and develop their legs as right now they are only heads, body and tails! It has been an awe-inspiring experience thus far with the essential and urgent question being "What Ms. Mullin will do with the babies that survive?"

Environmental Club

The WTHS Environmental Club had an exciting month planning and implementing the first Green Week in Winslow Township High School's history. As such, students partnered with Leo Club and cleaned the campus and hosted an informational table at the Winslow Township Green Fair on May 6th. Also, club members completed the annual Ocean City Beach cleanup mission.

Teen Conference

On May 11, 2023, Eagles Landing had the opportunity to take WTHS students to an invaluable Teen conference hosted by the Planned Parenthood Northern, Central, and Southern New Jersey (PPNCSNJ) Education Team. The event was held at the Doubletree Hilton, 2349 Marlton Pike W, Cherry Hill, NJ and the goal was to expose students to age-appropriate, interactive workshops which provided medically accurate education and were customized to meet the needs of each member of the audience. Students had the opportunity to engage in activities which explored and furthered their understanding of the following topics: health, gender identity, healthy relationships, substance abuse prevention, healthy choices, bullying, communication, and financial management.

Congratulations

WTHS TV Production

Congratulations to the WTHS TV Production crew and Mr. Norm Ingram (producer) for winning the 1st Place Grand Prize of \$10,000.00 at the 3rd Annual High School Film Festival with a 7-minute documentary entitled "My Joy Has Arrived"- YouTube Premiere https://youtu.be/s9_wFlv-G6M. The film follows a current student, Ayomide "Ayo" Ogunsola, and his family's journey from Lagos, Nigeria, to the United States. It touches on the hardships he faced while discovering a passion for basketball here at Winslow as someone who had never played before and was already a 15-year-old Junior. By invitation from NFL films, WTHS competed against six other high schools from the Tri-State area. The event was hosted by Good Day Philadelphia TV Host Alex Holley and was judged by some of the world's best sports documentary professionals. Winslow Township was the unanimous winner and the prize money earned will further advance the TV Production Program next year! Terry Harris (Junior), won the "Rising Star" award for his important contribution to the project and was awarded a trophy and a brand-new MacBook Pro! This is the third straight year of Winslow Township winning this prestigious award (2019, 2022, 2023). No competitions were held in 2020 & 2021 due to the pandemic. We are very proud of the students of our TV Production program who, to date, have now earned a total of \$18,500.00 towards the advancement of WTHS's TV Production Program. VISITATION DAY

The WTHS Guidance department took a group of students to attend Stockton's University Dual Credit Visitation Day. The event was exclusively for students enrolled in Stockton dual credit courses. Students had a chance to visit the various departments, learn about program-related scholarships and trips and have lunch in the college cafeteria. Students returned with many more reasons to attend college, particularly Stockton.

Spanish Honor Society

On May 24, 2023, WTHS's Spanish Honor Society hosted its annual field trip to Storm Dance Studio in Cherry Hill. Students received dance lessons in Cuban Rueda Casino dance, one in which pairs of dancers form a circle with dance moves called out by one person, a caller (el "líder" or "cantante" in Spanish). After their dance class, the students went to the Mexican Food Factory and enjoyed authentic Mexican food surrounded by paintings by Frida Kahlo. Also, for the first time ever, The Spanish Honor Society taught a cross curricular lesson - animals and their habitats - with Miss Easterling's class. The occasion turned out to be both symbiotic and enjoyable for all involved. Additionally, in May, the Spanish Honor Society hosted the first annual Spanish II Honors class competition. Spanish Honor society students created the questions and lead

the competition. Participants were given questions from various aspects of their curriculum: grammar, vocabulary, sentence structure, speaking, listening and culture. The competition went into over-time and Mrs. Gomez's 5th period took the lead which lead to a win! The teachers who mentor the Spanish Honor Society would love to take a minute to thank all the senior members who contributed so significantly to making this a really special year! Viva Espanol!

❧ INTRODUCTION AND PURPOSE ❧

The purpose of this Purchasing Manual is to assist all Board of Education employees in the proper purchasing practices to be in full compliance with:

- New Jersey Public School Contracts Law N.J.S.A. 18A:18A-1 et seq.;
- New Jersey Administrative Code N.J.A.C. 5:34-1 et seq.;
- Board of Education Purchasing Policies;
- Federal Procurement Code--2 CFR 200.317 et seq., when applicable;
- NJQSAC Fiscal DPR Indicator #15;
- Local Finance Notices – NJ Division of Local Government Services
- Other laws and administrative code when applicable.

The Purchasing Manual is designed to achieve three (3) goals:

1. Compliance with the law, code and board policy on purchasing;
2. Promote efficiency in the purchasing practices; and
3. Achieve savings of money through proper purchasing practices.

Proper Planning

We ask you, the user of the purchasing system, to help achieve these goals through proper planning. Please allow yourself enough leeway between generating a purchase order and the actual date materials or services are needed. Please think of purchasing in terms of a whole year. What items and services do you need on an annual basis? Through proper planning, we can eliminate much of the frustration that is encountered in all public school purchasing procedures.

Who Should Review this Manual?

This manual should be reviewed with all administrators, department heads, teachers, secretaries, and others who are involved in the purchasing process. It is imperative that everyone adhere to all purchasing laws and guidelines.

Deliberative Process—Purchases of Goods and Services Take Time!

- **Compliance with Law; Code; Board Policy**

Public school purchasing is a deliberative process, designed to ensure compliance with the Public School Contracts Law, appropriate New Jersey Administrative Code, board of education policy and when applicable, Federal Procurement Code.

- **Limit Fraud**

The deliberative process also encompasses checks and balances and internal controls designed to limit fraudulent activities.

Public school purchasing is indeed a time consuming effort; please be patient!

Mandatory Training

All school personnel involved in the requisition and purchasing process shall attend mandatory training sessions concerning proper purchasing procedures. The training will be presented in two (2) sessions:

➤ **Session I—Purchasing Procedures**

All administrators, supervisors and principals, pursuant to N.J.A.C. 5:34-1.1 (b), shall attend this mandatory training session on purchasing procedures.

➤ **Session II—Requisition and Purchase Order Process**

All school personnel involved in the preparation of requisitions and purchase orders shall attend this mandatory training session.

Recommending Purchases; Educational/Operational Rationale

Administrators who recommend purchases should be able to explain and defend the need of the purchase and why the purchase is essential to the school district. Administrators who sign off on requisitions/purchase orders may have to provide an educational or operational rationale for the purchase based on the following:

- How will students learn or benefit from the purchase?
- What educational achievement or program may be linked to the purchase?
- How is the purchase of operational value to your school/office?
- Are the goods/services purchased useful for the long term rather than immediate need?
- Have inventories been checked to determine whether there is a real need for the purchase?

The award of contract to a vendor approved by the Board of Education at a public meeting does not automatically authorize any employee to use the services of, or purchase materials from, the vendor.

All contract purchases require the issuance of a purchase order authorizing the purchase of services and/or goods and materials from the vendor.

METHODS OF PROCUREMENT

A. Advertise for Bids (Purchases that exceed the bid threshold--\$44,000)

This method is used for procuring goods, materials, services and public work projects that exceed in the aggregate of the board of education approved bid threshold of \$44,000.

Examples of Bidding:

Building Services Department

Plumbing, Electrical, HVAC work
Custodial Supplies
Public Works Project

Technology

Computer Supplies/Equipment
Printers / Computer
Interactive Boards

Food Services Department

Groceries and Canned Goods
Kitchen Equipment

District

Furniture
AV Equipment

Athletics

Footwear
Athletic Supplies/Equipment
Physical Ed Supplies/Equipment

Award of Contract--Lowest Responsible Bidder

The common thread of all these bids is that the district has to award the contract pursuant to N.J.S.A. 18A:18A-4 (a) to the lowest responsible bidder.

N.J.S.A. 18A:18A-2 (l). "Aggregate" means the sums expended or to be expended for the provision or performance of any goods or services in connection with the same immediate purpose or task, or the furnishing of similar goods or services, during the same contract year through a contract awarded by a purchasing agent.

Bids and Purchasing:

1. Bid Limit -- \$44,000 --this is the QPA purchasing agent bid threshold.

The Winslow Township Board of Education is restricted by New Jersey state law on how much money can be spent by the district for the entire year on materials, supplies, and services.

This restriction is called the **bid threshold** or **bid limit**. The bid limit is \$44,000. This means that any specific item, class of items, and/or services of a similar nature, purchased by the school district totaling in the aggregate more than \$44,000 for the entire year, must be competitively and advertised for bid. This restriction is for the entire district and not by location or schools.

School officials cannot circumvent the law by splitting purchases to be under the \$44,000 bid limit. Administrators that have purchases that may exceed the \$44,000 bid limit, are to contact the Purchasing Office to begin planning the bid process.

The formal bidding process takes about 6-8 weeks to complete as explained the Appendix under Bid Process.

2. Annual Bids—N.J.S.A. 18A:18A-9

The Board of Education, to be in compliance with N.J.S.A. 18A:18A-9, requests that central office administrators, directors, supervisors and school principals start to plan and prepare for Annual Bids. The proposed time lines are as follows:

- | | |
|----------------------------|---|
| <i>February-
March</i> | <ul style="list-style-type: none"> • Administrators/Supervisors prepare technical specifications to be reviewed by Purchasing Agent. |
| <i>April</i> | <ul style="list-style-type: none"> • Purchasing Agent prepares final bid specifications to be drafted in a manner to encourage free, open, and competitive bidding. Bids are advertised pursuant to the Public School Contracts Law. |
| <i>May/June</i> | <ul style="list-style-type: none"> • Annual bids are received, opened and tabulated by Purchasing Agent. |
| <i>May/June</i> | <ul style="list-style-type: none"> • Award of contract resolutions are prepared by the Purchasing Agent for Board of Education review and approval. |
| <i>June</i> | <ul style="list-style-type: none"> • Purchase orders are generated by Administrators/Supervisors and presented to the Purchasing Agent for services to begin on July 1st. |
| <i>June/July</i> | <ul style="list-style-type: none"> • Purchase orders are generated for goods and materials to be delivered to the schools for August delivery. |

3. Bidding: Time Frame

As stated before, the formal bidding process usually takes about 6-8 weeks from start to finish. Please plan appropriately. An outline of the bidding process is located in the Appendix.

4. Exceptions to the Bid Limit

New Jersey State Law allows for some exceptions to the bid requirements. There are approximately twenty (20) exceptions where a Board of Education does not have to go for bid for goods and services. Some of them are:

- a. Purchasing through New Jersey State Contract; Other State Approved Co-ops.
- b. Professional services as outlined by New Jersey law;
- c. Textbooks, kindergarten supplies, student produced publications, library and educational goods;
- d. Legal notices, food supplies, milk, utilities, insurance, election expenses, travel and conferences; and
- e. Contracts with other government entities; county and state colleges.

* These purchases may be subject to the quotation process pursuant to N.J.S.A. 18A:18A-37(a) if practicable.

B. Quotations (Purchases that fall between \$6,600 and \$43,999)

This method of procurement is used for contracts for goods, materials, services and public works projects that in the aggregate are between \$6,600 and \$43,999.

Examples:

Athletic Trainer Supplies
 Fitness Equipment
 Payroll Checks

Athletic Wear
 Instrument Reeds
 Dry Cleaning Services

Award of Contract—Price and Other Factors

The board of education, is obligated to solicit at least two (2) competitive quotations and award the contract pursuant to N.J.S.A. 18A:18A-37 (a), to the vendor whose response is most advantageous, price and other factors included.

Quotations and Purchasing

1. Quotation Limits--\$6,600 through \$43,999

The quotation limit (threshold) presently is \$6,600. This means that any specific item or group of items of a similar nature purchased by the school district, totaling more than \$6,600 and less than \$44,000 for the entire year, must be competitively quoted or advertised for bid at the discretion of the Purchasing Agent.

School officials cannot circumvent the law by splitting purchases to be under the quote threshold.

2. Quotation Process

All quotations shall be in writing and will be coordinated by the Business Office. When a quotation is deemed necessary, the Administrator, Principal, or Department Head is required to get quotations in writing. When a quotation is deemed necessary, the administrator/supervisor or school principal is asked to contact the Business Office. The Business Office will review these quotation specifications to determine whether they are set up to provide open and competitive quotations.

Please note: The formal quotation process could take about 2-4 weeks from start to finish.

There will be no telephone quotations except in a case of extreme urgency.

3. Receipt of Two (2) Quotations

Pursuant to N.J.S.A 18A:18A-37(a) the school district shall solicit two (2) quotations, if practicable. Evidence of the quotation process shall be kept on file. A copy of the quotation shall be attached to the purchase order. The comparable quote should be documented in the description of the requisition. It should also be attached to the requisition in CSI-Smarts. See “Procedures for Attaching Documents in CSI” (Appendix L). It is the responsibility of the Purchasing Agent to solicit formal quotations.

C. Request for Proposal—RFP -- This method is preferred for the following contracts:

Professional Services

Medical
 Auditing; Accounting
 Legal
 Engineering, Architectural
 Special Education Related Services

Academic/Operational Services

(Contracts less than \$44,000)
 Instructional Improvement
 Educational Consultants
 Professional Development

Award of Contract—Evaluative Criteria

The RFP method is designed to award the contract to the vendor based upon a list of criteria which include as recommended by the New Jersey State Comptroller’s Office with the

Best Practices in Awarding Service Contracts (2010)

- Technical
 - Submission of narrative how firm will provide services; planned approach; measurable results
 - Understanding how services will be provided
- Management
 - Business organization; staffing
 - Experience; and
 - Knowledge of district
- Cost
 - Fee proposal submission; cost analysis

The contract for an RFP contract *does not have* to be given to the respondent who submits the lowest price. The evaluative criteria process is designed to award the contract to the respondent whose response will provide the highest quality services at fair and competitive prices.

D. Competitive Contracting (Certain Contracts over \$44,000)

This procurement method is used for certain contracts over \$44,000.00.

The district can only use this method for contacts that are outlined in NJ State Law 18A:18A-4.1. **Some** of the examples that are permitted are

- Proprietary Computer Software for Board Use
 1. Student Data Warehousing
 2. Student Information System
 3. Business Office; Human Resources Software
- Professional Development Services
- Educational Consultant Services
- Instructional Improvement Services

The award of contract is similar to the RFP award of contract. It is based upon the same evaluative criteria which is designed to award the contract to the respondent whose response will provide the highest quality services at fair and competitive prices.

The administrative process of Competitive Contracting as outlined in N.J.S.A. 18A:18A-4.1 et seq. and N.J.A.C. 5:34-4.1 et seq. is a rather lengthy process and make take 6-8 weeks to complete.

E. State Contract --NJ START--Purchasing

Pursuant to N.J.S.A. 18A:18A-10 (a), a Board of Education may purchase goods and services through New Jersey START (NJ START) contract vendors. If the purchase exceeds the bid threshold, the Board of Education must adopt a resolution awarding the contract.

VENDOR PAYMENT PROCESS**Contracted Services****Role of School District****Purchase Order Contract Amount—Not To Be Exceeded!**

The contracted services vendor/provider (vendor) receives a purchase order from the Purchasing Agent notifying the vendor that services may begin.

The purchase order has a total contract amount. This contract amount may not be exceeded unless authorized by the Board of Education in writing.

Monitoring Contract Amount—District Administrator Responsibility!

The School Business Administrator asks all district administrators to monitor all vendor bills and invoices to ensure they do not exceed the total contract amount. Administrators are asked to contact the Purchasing Agent, forty-five (45) days in advance, if the total contract amount is close to being exceeded. The Purchasing Agent then can begin a process to exceed the purchase order amount pursuant to administrative code.

Exceeding Contract Amount—Unauthorized Service!

If any administrator permits a vendor to exceed the contract amount, the administrator has permitted an unauthorized service, which is similar to an unauthorized purchase. Administrators are asked to monitor the dollar amount of services being provided to the district.

Monitoring Contract Amount—Vendor Responsibility!

The district asks all vendors to also monitor all bills and invoices to ensure they do not exceed the total contract amount. Vendors are asked to contact the respective administrator, forty-five (45) days in advance, if the total contract amount is close to being exceeded.

Exceeding Contract Amount — Written Authorization!

Contracted vendors may only exceed the amount on the purchase order when authorized by the School Business Administrator in writing. The authorization will be in the form of a new purchase order being issued to the contractor signed by the Purchasing Agent.

All bills and invoices submitted to the Business Office by the vendor will be sent to the appropriate school district administrator/supervisor for review and approval. The Business Office cannot begin the payment process until it receives the invoices signed and approved by the appropriate administrator.

End of Year Billing/Cancellation of Purchase Orders

Administrators are to work with contracted services vendors so that end of the year invoices are submitted to the Business Office in a timely fashion. This is imperative. In order to comply with the State of New Jersey Department of Education requirements, the district has adopted a policy of canceling open purchase orders at the end of the fiscal year. All invoices must be billed within thirty (30) days of services to meet the State Department of Education deadline. If we are not in receipt of your invoice within the thirty (30) day deadline, we will not be able to process payment in a timely fashion and the corresponding purchase order may be cancelled, thereby causing a delay in payment.

CSI Smarts-Budgetary Accounting Purchase Requisition Processing

Purchase Requisitions – General Information for Entering into CSI Smarts

Note: Please review the Purchasing Manual for detail about preparing purchase requisitions/purchase orders. The following information only applies to inputting the information into CSI Smarts.

1. The purchase requisition is entered into CSI SMARTS using the PO Entry command. The purchase order number will automatically be assigned. Each item on the requisition must be entered, unless exception is noted in the Purchasing Manual. If it is necessary to use “As per Attached”, be sure to include another detail line and provide a basic description of the items.
2. Ensure that the account number is correct and there is an amount listed. (L-A is \$.00) Also, if there is insufficient funds, CSI will state that. At this point, there will need to be a reduction in the purchase requisition or a transfer will need to be completed.
3. Attach any documentation that supports the information listed in the requisition. See “Procedure for Attaching Documents in CSI”. This will also help speed up the approval process and answer questions the business office might have. Also, please send two copies of the quote you will using to Gail Smith in the Business Office.
4. Once everything is entered and saved, please make a note of the purchase order number and keep a copy of all the documentation for the purchase requisition. After this is completed, the requisition will be seen by all approvers in their “Requisition Approval” queue.
5. Frequently review the status of your requisitions with the “Requisition Status Report” in SMARTS.
6. If you have any questions about this process, please contact Assistant Business Administrator in the Business Office.

(Appendix K)

Procedure for Attaching Documents to Requisitions/Purchase Orders in CSI-SMARTS

This is the procedure for attaching documents to various screens in CSI. Most screens have the capability of “holding” attachments. The Document Icon (looks like a desktop scanner) is the 3rd icon in the icon row, or in the File menu. It is advisable that you establish a folder on your PC in My Documents for easy uploading purposes, storing your attachment and file organization. Please follow these steps when creating attachments in CSI:

1. Organize the documents appropriately before scanning. Each scan will create an individual file so consider scanning quotes and other documents as separate files instead of one large document all together. (see step #6 for the categories of files)
2. Scan documents to your email
3. Save pdf from email into your designated folder for such files
4. In CSI, when entering a requisition, for example, click the Document Icon to activate the attachment box
5. Click “Copy” and browse to the file you wish to attach, click Open
6. Select a Document Type from the drop down menu, click OK
 - a. Catalog Page
 - b. Employee Reimbursement Form
 - c. Invoice/Voucher
 - d. Membership Form
 - e. Miscellaneous Backup
 - f. Packing Slip/Receiving Copy
 - g. Professional Development Doc
 - h. Quotation/Proposal
 - i. Rationale
 - j. Registration Form (Conf)
 - k. Request for Quote
 - l. Subscription Order Form
7. You may also click “Note” and write any text you wish. It will be saved as another attachment

After the requisition has been saved and refreshed, you should see a green background on the Document Icon. That means there are attachments. When you click it, you will see the attachments that have been saved to the requisition, vendor, etc.

PREFACE

The **Guide for Standard Operating Procedures and Internal Controls** is a document that outlines the business practices that are approved by the Winslow Township Board of Education and administered by the Business Office. It is intended to be used as a reference manual by administrators, secretaries and any staff members that have Budgetary/Financial responsibilities. Its purpose is to provide an efficient, control and accountability system that will help assure appropriate use of “Public Funds”. It must be understood that the principles of this manual are based on, “Generally Accepted Accounting Principles,” and rely on an assumption that individuals have a general understanding of the financial process of a School System. For this program to operate at optimum efficiency there must be a spirit of cooperation, teamwork and communication between the school staff and the Business Office.

SECTION I – INTERNAL CONTROLS

WINSLOW TOWNSHIP SCHOOL DISTRICT INTERNAL CONTROL DOCUMENT

OVERVIEW:

Internal controls are not separate systems of the school district. Controls are not an isolated activity but integral part of each activity used to guide the district.

Establishment, maintenance and evaluation of the internal controls are the responsibility of the administration. The evaluation of internal controls includes identifying the framework used by the administration to determine the effectiveness of the internal controls.

Controls are in place to detect or prevent errors and fraud. An error is an unintentional mistake that has the potential to affect the financial statements and fraud is the intentional misuse or misappropriation of district's assets.

OBJECTIVES OF INTERNAL CONTROL:

The three objectives of internal control are to ensure the effectiveness and efficiency of operations, reliability of financial reporting, and compliance with applicable laws and regulations. The safeguarding of assets is a subset of all of these objectives.

Continuous monitoring and testing is needed to help to identify poorly designed or ineffective controls. The administration is also responsible for communicating the objectives of internal control and ensuring the organization is committed to sustaining an effective internal control environment.

COMPONENTS OF INTERNAL CONTROLS:

The five components of internal controls include the control environment, administration's risk assessment, administration's communication of the controls, control activities and monitoring of the controls.

CONTROL ENVIRONMENT:

The control environment includes the organizational structure, the control framework, the district's policies and procedures and internal and external influences. The tone set by the WINSLOW TOWNSHIP SCHOOL DISTRICT's board and administration determines the attitude toward the controls of the district.

ORGANIZATIONAL STRUCTURE:

The organizational structure determines the administration's responsibilities and the sets the relationship with the board, which sets the policies.

CONTROL FRAMEWORK:

Elements of a control framework include the following:

Segregation of duties to help ensure the reliability of the organization's internal controls, one person should not have access to all stages of a process. If there is not proper segregation situations could arise where errors or irregularities occur and go undetected.

Integrity and competence of the personnel performing the duties are key to achieving the desired controls. This includes hiring the proper people and continually training personnel. It is important to ensure that employees who perform financial tasks have the knowledge and skill to perform their duties.

Communication by the administration of the controls and the employee's responsibilities are as important as ensuring that employees know how to communicate irregularities that may arise.

SECTION I – INTERNAL CONTROLS

Proper supervision of employees is needed to ensure proper execution of control activities.

DISTRICT'S POLICIES AND PROCEDURES:

The district's policies set the overall direction of the district. Procedures for all areas of financial preparation, reporting, operations, transportation, maintenance, personnel and payroll are needed. These policies and procedures will become the basis for the determination of compliance.

ADMINISTRATION'S RISK ASSESSMENT:

The administration has to conduct an assessment of risks relevant to the financial statements. This includes the identification of potential risks, the analysis of the potential impact of those risks on the ability to properly report the financial statements and the overall management of risks. Items to consider in the risk assessment of the district include, but are not limited to:

1. New personnel or new duties for existing personnel
2. How a change in accounting information system impacts controls and how effectively the training of personnel on new system was conducted
3. Changes in the regulations and laws that may affect the control environment
4. Record storage is appropriate and secure (fireproof cabinets when needed for manual documents and proper passwords and access limitations for electronic information)
5. District limits access to computers and data files
6. Segregation of duties
7. Transactions are recorded timely
8. Cash is deposited timely
9. Assets are physically safeguarded
10. Transactions are performed by only authorized personnel
11. Reconciliations are properly and promptly completed
12. Occurrences of management override

INFORMATION AND COMMUNICATION:

The administration needs to determine if the information systems utilized in the district are adequate and relevant for their intended purpose.

The district's administration is responsible for communicating the controls of the district and the responsibilities of each employee in the control system.

The administration is also charged with reviewing information that may indicate a flaw in the controls that would not allow the control to detect an error in a timely fashion.

CONTROL ACTIVITIES:

Control activities include the policies and procedures that are in place to achieve the controls desired. Documentation of the control activities is vital to the overall control environment. These activities include, but are not limited to:

1. Segregation of duties
2. Transactions are recorded timely
3. Cash is deposited timely
4. Assets are physically safeguarded
5. Transactions are performed by only authorized personnel
6. Reconciliations are properly and promptly completed

SECTION I – INTERNAL CONTROLS

CONTROL ASSERTIONS:

Control activities can be categorized into one or more assertions. All assertions should be addressed for each process (payroll, cash disbursements, etc).

1. Existence (E) /Occurrence (O) – Existence is whether the assets or liabilities of the district exist at any given point in time (cash, state aid receivable). Occurrence is the whether the transaction took place (goods were received before the PO was moved to accounts payable from encumbrances)
2. Valuation (V) or Allocation (A) – Valuation is whether the asset or liability is included on the board secretary's report at the proper value (the amount of cash or state aid receivable). Allocation is whether the revenue and expenditures were recorded in the proper amounts.
3. Accuracy/ Classification (A/CL) – transactions are recorded accurately and the classification of the transactions are proper.
4. Completeness (CO) – is whether all transactions are included (unrecorded purchase orders).
5. Cutoff (C) – Transactions are recorded at the proper time (purchase orders written in the proper year).

MONITORING:

The administration is charged with reviewing internal controls on an ongoing basis. Monitoring can include responding to the recommendation of the auditor in changes in the controls. Reviewing correspondence from outside sources such as banks and vendors for unusual items is part of monitoring.

Employees should understand the control activities and their responsibilities in those activities.

AFTER THE CONTROLS ARE ESTABLISHED:

Once the district establishes controls, those controls need to be evaluated at least annually and anytime circumstances dictate. Changes in personnel or regulations are examples of these.

As controls are evaluated they will either be effective or ineffective at achieving the proposed control. Controls are effective when there would be no material weaknesses in internal controls involved in financial reporting. Ineffective controls would be those where at least one material weakness exists. If a control is determined to be ineffective, then the control deficiency needs to be evaluated.

CONTROL DEFICIENCIES:

A control deficiency exists when the design or operation of a control does not allow the administration to prevent or detect misstatements on a timely basis. A design deficiency exists when a necessary control is missing or is not designed to enable the control objective to be met. An operational deficiency exists when control is designed properly, but does not operate as designed or the person performing the control is not qualified to perform the control.

A deficiency may exist that is unavoidable (segregation of duties in a small office). For these, compensating procedures should be put in place. These compensating procedures do not correct the deficiency.

REASONABLE ASSURANCE AND LIMITATIONS ON CONTROLS:

Reasonable assurance is a high level of assurance, but is not absolute. The district should understand that potential fraud could exist and not be detected timely in the following circumstances: when the district has poorly designed or operated internal controls, or when there are too many overrides of controls, when there is collusion between employees or between an employee and a third party.

SECTION I – INTERNAL CONTROLS

REVIEW OF DISTRICT PROCESSES:

When reviewing processes in the district, it may help to consider incorporating the “5 Ws”.

1. Who performs each activity? Who receives the outcome of the activities?

2. What activities are performed? What forms and reports are used? What computer systems and files are used?

3. When are activities performed? What is the sequence of activities? What is the timing of the activities? What is the frequency of the activities?

4. Where are activities performed (i.e., board office, school, etc.)?

5. Why are activities performed (i.e., what risks are controlled, what control assertion does process step serve, etc.)

One final consideration should be whether any changes to the process will increase the efficiency of the process or firm up the controls.

CONTROLS LISTED:

The controls listed here are not intended to be a complete list of controls, as each district will have different processes, controls and concerns. These items should be used as a beginning for the review of controls.

Title: Use of School Facilities

Purpose: Buildings and facilities are constructed and purchased by the Board of Education for providing a school program. The Board encourages community use of these facilities providing that this use does not interfere with the program of the school.

Procedure: The Board of Education recognizes that district facilities are valuable community resources and encourages the community to use district facilities on a year-round basis, as long as such use does not interfere with the primary purpose of using school facilities to offer a full educational program for children. Prudent use and management of school facilities outside of the regular school operating schedules, providing that such use does not interfere with the orderly conduct of a thorough and efficient system of education, allows the community to benefit more broadly from the use of its own school property.

The Board further recognizes that unrestricted use of facilities can cause major damage to buildings, fields and courts. Therefore, it reserves the right to prohibit, rescind or change the use of its facilities, without notice to insure that proper care and maintenance can be accomplished. The Board and/or its agents, reserve the right to suspend or prohibit any use of facilities regardless of prior approval for use.

It is the responsibility of the Superintendent, or designee, in consultation with the appropriate principal and building and grounds supervisor to receive, review and approve/deny all requests for use of facilities under the stated policies consistent with Regulation 7510. It is also the administrator's responsibility to inform, in writing, the organization requesting the usage of their facility use of the application's approval or denial. The Board of Education reserves the right to deny facilities usage granted by the appointed administrator.

Requirements for Facilities Use

The Board of Education will permit the use of school facilities when such permission has been requested, in writing, and has been approved by the Superintendent, or designee, for the following uses or groups listed below. When several groups or agencies vie for the use of the same facility, use of facility will be awarded in the following order:

- Uses and groups directly related to the school and operations of the school and its programs;
- Uses and organizations indirectly related to the school;
- Departments or agencies of the Winslow Township Municipal Government;
- Other governmental agencies of the county and/or state;
- Community organizations formed for charitable, civic, recreational, or educational purposes and churches;

SECTION II- ACCOUNTING

- School districts involved in a formal send/receive relationship with the Winslow Township School District.

In the event that the Superintendent deems it advisable, any written application may be submitted to the Board of Education for review and action. The Superintendent or Board of Education may refuse to grant the use of a school building or other facility whenever in their judgment there is good reason why permission should be refused. Neither shall be required to give a reason for such refusal.

The use of school facilities shall not be granted for the general or specific advantage of any commercial or profit making organization, private social functions, or any purpose which is prohibited by law. All functions for which facilities use is granted must be nondiscriminatory in nature. Pursuant to New Jersey Administrative Regulations, the Board of Education prohibits smoking in all district buildings and on school property.

Each user shall present evidence of the purchase of organizational liability insurance listing the Board of Education as additional insured to the dollar limit prescribed by the procedures by which facilities use is granted. Authorization for use of school facilities shall not be considered as an endorsement of or approval of the activity, person, group, or organization, nor the purpose they represent.

Use of school equipment used in conjunction with the use of school facilities must specifically be included in the written request for facilities usage, and said use may be granted by the procedures by which permission to use facilities is granted. The user of school equipment must accept full liability for any damages to or loss of such equipment that occurs while it is in use. Where specific rules or regulations so specify, no item of equipment may be used except by a qualified or certified operator. Use of district equipment on the premises by non-school personnel is limited to the equipment that is an integral part of the facility being used (e.g. basketball baskets in the gym, stage lights on the stage). No district equipment may be removed from the school premises for use by any non-district personnel. The Board of Education shall require that all users of school facilities comply with all policies and regulations of this Board and the rules and regulations of the district.

Fee Schedule

It is the intent of the Board of Education to provide a differentiated pattern of facilities use fees depending on the nature and purpose of the individuals and/or organizations for whom school facilities use is granted. The fee schedule includes an application fee, fees for the use of Custodial Staff, Technicians, and Security Monitors/Police Officers, if applicable. Fees will also be incurred when use of facilities occurs during extended hours, i.e. times when the school facility would not be occupied (including weekdays and weekend hours when the Board of Education incurs and expense). By resolution of the Board, the purchasing agent may include the sale of personal property no longer needed for school purposes as part of specifications to offset the price of a new purchase.

Personal property may be sold to the United States, the State of New Jersey, or to any body politic in the State of New Jersey, or any foreign nation which has diplomatic relations with these United States by private sale without advertising for bids.

Title: **Budget Development Process**

Procedure:

School Budgets – Site Based Management

School Budgets are the responsibility of the Building Principal. It is also the responsibility of the Principal to justify proposed expenditures in each of the line item accounts. Building Principals track their school accounts during the year making the necessary transfers needed to ensure no accounts are over- expended. If during the budget development process there is a need to reduce the school budgets, the Building Principal will be notified of the amount. Below is a tentative breakdown of the budget process.

November

Distribution of:

1. Individual school/ department line item budget
2. Personnel request; for additions and /or reductions of staff.

January

1. Beginning of January, meeting with the Superintendent of Schools, School Business Administrator, and individual School Principal or Supervisor to review additional needs for the following year.
2. Return of the individual school/ department line item Budget, along with the personnel request.
3. May - Teachers may begin inputting orders through Ed Data system for next year.

**WINSLOW TOWNSHIP SCHOOL DISTRICT
NEW JERSEY**

Title: Budget Transfers

Procedure:

Individual budget line item transfer requests are to be submitted to the School Business Administrator by the Building Principals and/or Curriculum Supervisor. Requests must be submitted using the budget transfer request form. When transferring money from one account to another, the "from" account must have enough money to cover the transfer, if not, then the transfer cannot be completed. Make sure the correct account numbers that need to be affected, are used and fill in the description of the account.

Update transfer report as necessary, (suggested on a monthly basis), for submission to County Office twice a year (December and June).

**WINSLOW TOWNSHIP SCHOOL DISTRICT
NEW JERSEY**

Title: Grant Application Procedure

Procedure:

1. The District receives funding from various Federal, State and local agencies. All grant applications must be submitted for approval prior to submission to the Granting Authority to the Building Principal, and then to the School Business Administrator. All grants require approval from the Superintendent and action from the Board of Education. **Board minutes must include account number, staff name, position, annual salary, funded salary and percentage of annual salary paid with federal funds.**
2. To ensure that funds are utilized for allowable purposes, purchase requisitions/purchase orders should be reviewed by the grant administrator. In addition, the grant administrator must confirm that the vendors are not on the list of suspended or disbarred vendors.
3. The School Business Administrator will review fiscal and performance activities to ensure compliance with statutory and grant requirements, review the list of disbarred vendors, and ensure compliance with purchasing regulations. Expenditures of Federal funds will be made in compliance with Uniform Administrative Requirements—2 CFR Part 200.
4. When required, monitoring reports will be prepared and submitted on a timely basis, as stipulated by the granting agency.
5. Federal funds should be obligated and liquidated on a timely basis. For programs which require the drawing down of funds, such draws should be made on a reimbursement basis. Interest earned over \$100.00 must be returned to the Federal Agency at least quarterly. Draw down procedures for federal funds are as follows:
 - a. Budgetary expenditures will be reviewed on a regular basis.
 - b. Expenditures will be grouped by function.
 - c. Only funds expended or that are reasonably expected to be expended by month's end (i.e. payroll disbursements) may be requested for reimbursement.
 - d. The Business Administrator, Assistant Business Administrator and/or Accountant can then request reimbursement of expended funds through the Electronic Web Enabled Grant (EWEG) System. Copies of reimbursement requests, and corresponding budget statements are retained on file for review.
6. All other procedures as described in this handbook will apply to transactions involving grant funds.

SECTION V – POSITION CONTROL

POSITION CONTROL STANDARD OPERATING PROCEDURE

Position control is a process to measure the current status of positions for personal services within the district in order to analyze their fiscal impact on the whole budget year. The impact of a position is determined by actual expenditures from the beginning of a fiscal year plus amounts set aside to cover appointments to the position for the remainder of the fiscal year.

The concept of position control implies that each position must be defined in specific terms and that the hiring procedure may not be completed until a specifically defined position exists for the applicant. Budget Status is determined by combining elements from the Position File, the Payroll Distribution File, and the Employee Data Base.

The base line year to use for position control is the snapshot date of February 1 of the prebudget year. Grouping should be established by budgetary function and object at a minimum.

According to 6A:23A-6.8, districts shall maintain an accurate, complete, and up-to-date automated position control roster in order to track the actual number of employees, as well as, the category of employees in detail.

The position control roster shall:

1. Share a common database and be integrated with the district's payroll system;
2. Agree to the account codes in the budget software.
3. Ensure that the data within the position control roster system includes:
 - i. The employee name
 - ii. The date of hire
 - iii. A permanent position tracking number for each employee including:
 - (1) An accurate expenditure account code(s)
 - (2) The building the position is assigned

- xi. The position's full-time equivalent value by location;
- xii. The date the position was filled; and

SECTION V – POSITION CONTROL

xiii. The date the position was originally created by the board. If the date the position was originally created is not available, this item shall represent the date the person currently filling that position was approved by the board.

A. Purpose

The purpose of this Standard Operating Procedure is to describe forms and procedures needed to assign position control numbers and create, or abolish positions.

B. Scope

These procedures cover all positions and all employees of the district.

C. Authority

The assignment of PCN's should be initiated by the CSA. Human Resources in conjunction with the SBA should maintain a list available to the CSA when hiring or transferring employees for the district. It is recommended that the PCN number be referenced in the resolution approved by the Board of Education.

D. Position

A position is a set of duties and responsibilities specified in a specific job description assigned to be performed by an employee of the district. A position may be full-time, part-time, stipend, permanent/non-permanent, seasonal (summer school, after school, athletics, etc...) and either filled or vacant. A permanent position does not exist until it has been authorized and established by the Board of Education, Human Resource and the Office of Business Administration.

E. Position Control Number – Creating and Maintaining

Position Control data is maintained in the Human Resources' Department. (See attached sample for creating) It is recommended that monthly or semi-monthly before the payroll is processed a report or review be done of all employees being paid. This report or review should indicate at a minimum the individuals PCN and linked budgetary account to be charged. Individuals not assigned a PCN must be assigned one and any vacant PCN should be noted for future reference.

F. Position Control Number (PCN)

A position control number (PCN) is created to represent each board approved contracted *position* within a district. These control numbers are attached to the budget spread, telling the system which account(s) the position is to be paid from. As the positions are filled, the corresponding control number is linked to the employee who is currently filling the position. Control numbers that are not linked to any employees represent vacant positions. An example: if your district has five board approved positions for high school math teachers, you would establish five PCNs to represent the five separate positions.

SECTION V – POSITION CONTROL

PCNs are independent of employee records. Each PCN represents a separate *position* within the district, *not* the employee who fills it at any particular time. Thus, if an employee leaves a position and the position remains open, the PCN remains active in the system representing a vacant position to be filled. Once an employee is hired for that position, the vacant PCN is then assigned to that person.

Vacant PCNs can provide an area where a projected estimated salary amount may be entered, providing the district with the ability to budget for positions that are expected to be filled. An assigned PCN will forward a calculated salary into the budget projection. As PCNs represent *positions* within the district, they are only added or deleted when a job position itself is either created or phased out.

G. Request for PCN for a New Position

Departments request for the use of PCNs for new positions or to reactivate an abolished position shall include detailed justification and a cost benefit analysis. The superintendent will determine if the new position is justified, needed and that adequate funds are or have been budgeted. Based on this determination, the superintendent will decide if they will make a recommendation to the Board of Education. Upon approval from the Board of Education, the Human Resources' Department will create a new PCN.

H. Other

Each PCN shall be integrated with the payroll system to ensure that the correct budgetary account is charged. The PCN system should be able to track through payroll and the personnel system the position by account number, individual, PCN and the history of the use of the PCN.

I. Sample Reports

The attached sample reports are to give the SBA information on the actual full function of the use of an integrated and non-integrated PCN system and suggestions for creating actual position control numbers for staff within their particular district.

- PC Payroll Account Mismatch – This report compare personnel information to payroll.
- Report of Position History - This report shows reflects who has been assigned to a specific PCN.
- Report by Employee -A simple alphabetical list indicating FTE, PCN, and Department
- Employee Budget List - A list of all staff by budgetary account code with PCN, FTE, budgetary account charged, percent charged and salary charged.
- Recommendation for Formation of Position Control Numbers – Examples for PCN segments.

SECTION V – POSITION CONTROL

- Internal Control Questionnaire- An example of the segregation of duties with regard to the assignment of Position Control Numbers.

SECTION V – POSITION CONTROL

Recommended Format for Meaningful PCNs

Each individual district must develop a PCN format that represents their board approved positions. If broken down into segments, PCNs are easily identifiable.

The chart below displays a recommended format that is consistent with other districts maintaining PCNs. This format can be implemented as is, or it can be used to assist your district in developing your own PCN format.

Title: Purchasing Procedures
Sub-Title: Authority to Purchase, Bidding and Quotations
Authority to Purchase:

According to New Jersey State statute 18A:18A-2(b), the Purchasing Agent/School Business Administrator is the only individual in the school district that has the authority to make purchases for the Board of Education.

Authorized Purchases

All requests for the purchase of goods and /or services must be made through an approved purchase order signed by the School Business Administrator. No goods or materials may be ordered or work/service be authorized to begin by any other individual in the school district other than the School Business Administrator.

Unauthorized Purchases

Any Board of Education employee who orders and/or receives any materials, supplies or services without going through the approved purchase order process has made an unauthorized purchase that may be subject to disciplinary action.

Procedure:

1. **QUOTATIONS:** When a single item or service, or group of like items cost between **\$6,600** to **\$43,999**, **two quotations are required.** **Quotes** are to be attached to the Purchase Requisition for submission to the Business Office.
2. **BIDDING PROCESS:** When a single item or service of a group of like items are at **\$44,000** or greater, the formal bidding process through the Business Office is required. Building Principals or Program Supervisors are responsible for providing the Business Office with detailed specifications and a list of vendors (if requested) for each item or service being purchased. The legal process takes approximately four to eight weeks from the date of the Business Office receives the request and specifications. After award of the bid the Business Administrator will notify the appropriate party of the award and the person requesting will submit a purchase order.
3. If the vendor has a State Contract Number, no quotes or bids are necessary, however the State Contract Number must appear on the purchase order.

SECTION VI – PURCHASING

4. **OTHER ITEMS:** The purchase of any single item or service not falling into one of the above categories must be processed on a purchase requisition / purchase order which will be approved by the School Business Administrator prior to the purchase.
5. **Reimbursements of employees:** The Board of Education recognizes an employee reimbursement purchase order when it pertains to pre-approved travel, meal and conferences. The Board **will not reimburse** employees for items and goods personally purchased by the employee as these items are required to be purchased through a vendor through the purchase order system.
6. **Student Activity Accounts:** Purchases made through Student Activity Accounts may not be reimbursed with Board funds. Purchase orders made payable to the Student Activity Accounts for the aforementioned purpose will not be signed by the Purchasing Agent.

SECTION VII – FACILITIES (INCLUDES ADMINISTRATION OF
WORK, HEALTH & SAFETY)

WINSLOW TOWNSHIP SCHOOL DISTRICT
NEW JERSEY

TITLE: Facilities Maintenance & Repair Scheduling and Accounting

SUBTITLE: General

PURPOSE: To have an automated work order system for prioritizing, performing and recording all maintenance repair requests for all district buildings and grounds.

Whenever a school district employee wants to request a repair or an enhancement from the Maintenance Department, they should complete a maintenance request. The maintenance request should be generated by the person making the request. Employees are encouraged to enter their request directly into the web-based work order system instead of using the paper form. The web-based system and paper form have been designed to include all information required by N.J.A.C. 6A:23A-6.9.

Prioritization

The work order must first be approved by the building principal and the business administrator before any work is performed. The work orders will be performed in the following priority order:

- A. Emergency – An emergency is a situation that poses an imminent threat to the health or safety of occupants of school property which requires the immediate delivery of goods or the performance of services. Normal purchasing procedures may be waived in the event of an emergency.
 - 1. An actual or imminent emergency must exist requiring the immediate delivery of the goods or the performance of the service.
 - 2. Within three days, the superintendent shall inform the County Superintendent of the nature of the emergency and the estimated needs to respond to it.
 - 3. The emergency purchasing procedures may not be used unless the need for the goods or the services could not have been reasonably foreseen.
 - 4. The contract shall only cover the necessary tasks to alleviate the emergency.

SECTION VII – FACILITIES (INCLUDES ADMINISTRATION OF
WORK, HEALTH & SAFETY)

- B. Safety – A safety issue exists when the issue could lead to the injury of any occupant of the building. Examples would include broken locks, water leaks, etc.
 - C. High – A work order should be categorized as high if the situation is in violation of laws or regulations or board of education policy. Examples would include broken heaters or air conditioners in violation of “Indoor Air Quality” rules or PEOSHA requirements.
 - D. Medium – A work order should be categorized as medium for general repair work of an existing system that no longer works, such as a broken sink. The Medium category also includes items included in the annual Comprehensive Maintenance Plan and the district’s Strategic Plan.
- VII. Low – A work order should be categorized as low for requests that are new items, such as a new shelf.

Within each priority category, work orders should be completed in chronological order. The Buildings & Grounds Supervisor may group work orders in order to complete them in an efficient manner. The superintendent or business administrator may authorize the completion of a work order in a priority order other than above.

Cost Benefit Analysis

Whenever the estimated cost of completing the work order, including labor and materials, is greater than the quote threshold, a cost-benefit analysis of outsourcing the work order shall be performed.

If the results of the cost benefit analysis indicate that it would be less expensive to outsource the work, the work shall be outsourced provided the work can be contracted in accordance with the Public Schools Contracts Law and it can be completed on time.

Completion Procedures

Labor & Materials:

The technician shall record the following for each work order:

- A. The actual hours worked by date.
- B. Whether those hours were at regular or overtime rate.

VIII. The actual materials and supplies needed to complete the order.

SECTION VII – FACILITIES (INCLUDES ADMINISTRATION OF WORK, HEALTH & SAFETY)

The technician shall record these items either directly into the work order software or on the paper work order form and forward that form to the Maintenance Secretary for recording in the work order software. The work order should be marked as completed after the transactions are entered.

Close Out Procedures

The Business Administrator shall review all completed work orders to ensure that they are properly classified and costed out for the Comprehensive Maintenance Plan. The work order should be marked as closed.

Contracted Services:

When a work order requires the hiring of an outside contractor, it should be assigned (in the software) to the Maintenance Secretary. If a contractor must be called in when the Maintenance Secretary is unavailable, she must be informed that a contractor is called. The Maintenance Secretary must mark on her calendar the contractor and the work order number for the service. She should initiate a requisition with an estimated amount for the service call. The work order number should be entered into the control number field on the requisition.

When the service is complete, the Maintenance Secretary should mark the work order as complete. When an invoice for the work is received, the maintenance secretary should enter it as a purchase transaction into the work order. The work order should then be marked as closed.

Planning

Prior to December 1st of each year, the School Business Administrator shall conduct an analysis of the work order system to plan for the following budget year. The analysis shall include:

- A. Productivity of staff as a whole and individually.
- B. Variations between estimated and actual labor and materials costs.
- C. Unusual trends for like projects.

PURPOSE: In order to ensure the overall performance of the district via its technology systems and data.

1. Password protection should be utilized for all network logons. Individual applications should also require users to have passwords.
 - a. Users should be reminded not share or write down passwords
 - b. Passwords for network access should be forced to be changed periodically
 - c. Passwords for applications should be changed periodically.
 - d. Passwords should be user generated and not stored whenever possible, with only reset ability housed at the technology department level
 - e. Passwords should not be repeated for network access and application access, particularly the student information system.
2. User accounts should only be made for network access and individual application access as required for the completion of the staff duties or learning opportunities for students.
 - a. No user profiles should be created, changed or deleted without proper authorization. This should include a written (or electronic) request form that is authorized by central administration. This authorization should include the name of the individual, the applications and network services to be granted access to and the level of security in each.
 - b. Systems that employ automatic account/password creation should be monitored regularly to ensure software functionality.
 - c. Access to district wide public folders should be restricted based on user role.

TITLE: Technology Systems

SUBTITLE: Systems software and applications authorized for use in the district

PURPOSE: The number, type and scope of individual applications should be monitored to maximize the efficiency of the technology while not creating an overly complex environment.

1. Purchase and use of new applications, including those that are web hosted and not actually owned by the district should require approval of the superintendent and business administrator. Among considerations should be any licensing issues, purpose of application, and compatibility of the new application with the current infrastructure. The need to expand the infrastructure as a result of the new application (for example, video sharing software may need additional storage).
 - a. Before new applications are purchased, there should be a determination of the needs of the district, a review of available solutions, a compatibility test with existing infrastructure and a determination of the needs satisfied by the application.
 - b. Before implementation of new applications, timelines and deliverables should be established. The deliverables would include what is expected of the application and the time frame for each.
 - c. Before installation of new applications, back-up of systems should be done in case of incompatibility and adverse reactions to the new software. Baseline information should be held.
 - d. Hardware requirements for the new application should be identified and purchased well in advance of installation of new applications, if needed. This allows for the proper testing of the new hardware.
2. For existing applications and systems software, a listing should be created and maintained and submitted by the technology department for periodic review by central administration. The list should include:
 - a. Hardware utilized, including name of server or location of software or application
 - b. Summarized description of user

Procedure: Maintenance Work Order System

In order to ensure that building maintenance projects are done in a timely fashion, the School Dude.com work order system must be followed. Work orders may generated by the teachers or other school personnel but must be forwarded and approved by the building Principal. The Principal’s office will log in the work order request through the School Dude program. The program will ask for specific information regarding the exact location and the extent of the work. By logging in at your school location, you are logging into the Maintenance Department’s Web Site therefore the work order is automatically sent to the Maintenance Office. No maintenance projects will be started without a work order. The General Manager of Facilities will prioritize the work orders according to the date needed and the severity of the work that needs to be done. The General Manager of Facilities will send a notice upon completion of the project.

Procedure: Computer Work Order System

In order to ensure that computer repairs are done in a timely fashion, the following procedure must be followed.

1. A work order is generated by entering a ticket in the Winslow School District Help Desk Ticket System, emailing the Technology Department or phoning the Technology Department indicating a description of the problem and the location. If the order is by phone or email it will be entered into the Winslow School District Help Desk Ticket System.
2. Tickets are received and delegated to the Computer Technicians and given a reference number. Tickets will then be processed in the order they are received, unless there is one that is classified as a priority request.
3. Upon completion of the ticket, the person initiating the ticket receive a report stating that the work is completed.

Subtitle: Physical security over technology equipment, peripherals and Media

Purpose: In order to ensure the overall performance of the technology systems, the equipment must be protected from harm, abuse, misuse and pilfering.

1. Rooms or areas that house servers will be secured either by electronic door entry systems (card swipes or proximity cards) or by mechanical means (locks). Access to these areas should be restricted to authorized personnel only.
2. Rooms or areas that house large amounts of computer or technology equipment (including server rooms, switch closets and computer labs) should have environmental controls to ensure the proper heating, cooling, ventilation, and dehumidification is provided. Environmental controls should be monitored with a system to report environmental alarms.
3. All computer and technology equipment should be tagged and inventoried. Technology purchases with federal funds regardless of cost must be inventoried and tagged with award name and year purchased. Annually the equipment should be physically verified against the inventory log for existence and location verification.
 - a. Verification should be made periodically to ensure that equipment is still located where the inventory record states. When equipment is moved, the inventory record should be updated.
 - b. Laptops and other portable pieces of equipment should be accounted for periodically by requiring the users to provide the piece for physical inspection.
 - c. Software clients can be used to track inventory of computer-based assets. Updates of software clients should be made on a regular basis.
 - d. Inventory should be kept of computer related parts, supplies, consumables, and peripherals.
 - e. District should track cost of replacement on all technology equipment valued above **\$2,000.00**.

TITLE: Information Management

Subtitle: Acceptable Use of Districts Technology and Information

Purpose: To ensure that anyone who has access to district electronic resources understand what is acceptable use of the technology and information and ensure that anyone who has access to sensitive information understands the acceptable uses of that information.

Procedure:

1. The board will establish a policy that informs all users of the districts' data, systems and information of the acceptable and non-acceptable uses of those district assets. The policy should identify students, staff, parents and guardians, and other users who may have access to the district's data, systems and information.
2. The board will adopt an acceptable use policy that at a minimum should prohibit the following regarding electronic systems conduct that interferes with or stops district activities, including but not limited to excess download, uploads, printing, copying, bandwidth usage, etc.

 - b. Involvement in the violation of, or conviction for violation of, federal, state, or local statutes or regulations regarding computers, electronic communications, interstate commerce and/or security regulations. This includes, but is not limited to, material protected by copyright, trade secret, obscenity and related laws.
 - c. Threats, harassment, libel or slander
3. This policy should be reviewed annually for changes in the types of information used and in the types of technology used

Information as referred to in the policy should not be limited to electronic information or simply the use of electronic systems. Controls need to exist over written information and paper files.

SECTION XIV– INFORMATION MANAGEMENT

- a. Individuals who have access to district records should not use the information for personal reasons
 - b. Sensitive information should be stored in a manner that does not allow for easy access. In the case of electronic information, passwords and restrictions based on user should be employed. For written and paper files, information should be secured by locking cabinets, drawers and doors to offices that hold such information.
 - c. Copies of sensitive material should only be made in cases where it is necessary. Any copies of information that is sensitive in nature should be destroyed in appropriate manner, such as shredding.
4. All users of technology and all those who have access to sensitive district information, should be required to sign an acceptable use form that states the person signing has read and agrees to uphold the policies set forth.
 - a. Forms should be signed at least annually and for any major change in position that allows access to additional information.

Section XV- Financial and Human Resource Management Systems

N.J.A.C. 6A:23A-6.7 GUIDANCE DRAFT

Directive

Pursuant to 6A:23A-6.7 school districts and county vocational school districts with budgets in excess of \$25,000,000 or with more than 300 employees shall maintain an enterprise resource planning (ERP) system which integrates all data and processes of an organization into a unified system. An ERP system uses multiple components of computer software and hardware and a unified database to store data for the various system modules to achieve the integration. NOTE: This system does not include student, transportation or food service databases or modules.

ERP System Integration Features

Three applications – comprise an ERP; accounting, payroll, and human resources system. System integration permits data sharing among the three applications, therefore eliminating any duplication of data entry. System integration features facilitate data sharing not only among the applications, but may also with third-party payroll, substitute placement/absence tracking, and bidding applications. Integration between these applications allows for the automation of many functions, enabling:

In Accounting

System-generation of the payroll purchase order and encumbrances at the start of each new fiscal year (salary amounts and expense account information from Payroll is used to create the file needed to generate the payroll PO encumbrances in Accounting).

Update/adjust payroll PO encumbrances throughout the year to reflect any staff/budget changes (updated salary/expense account information from Payroll is used update payroll PO encumbrances in Accounting). Automatically reduce payroll PO encumbrances to expenditures each pay period (transfer of payroll expenditure data from Payroll, or a third-party application such as ADP, to Accounting). Import next year's budget preparation data directly into a Budget Projection Module (transfer of salary data either from Personnel, or a third-party application such as Microsoft Excel, into Accounting). Import purchase order data from third-party bidding applications (such as Educational Data) to Accounting, automating purchase order entry.

In Payroll

Automatically update new fiscal year payroll salaries for all employees (transfer of contracted salary data from Personnel to Payroll). Or synchronize remaining contract days that can be printed on employees' payroll check stubs (transfer of remaining sick/personal/vacation day balances from Personnel to Payroll).

In Personnel

Import attendance information (automatically generating employee attendance records within Personnel from your AESOP or SUBFINDER system). Implement position control codes (transfer of employee budget spread data from Payroll via alpha/numeric position control code for each employee record within Personnel). Automatically update position control budget spread information (based on payroll budget spread changes – transfer of updated budget spread

Section XV- Financial and Human Resource Management Systems

data from Payroll updates Position Control Code budget spread data in Personnel). Generate projected salary data, by expense account, for budget preparation (transfer of employee salary data and Position Control Code budget spread information from Personnel to an Accounting's Budget Projection Module).

Payroll budget spread information can also be imported into Accounting from third-party applications such as ADP. Those not utilizing system integration will obtain the payroll budget spread database file from their individual payroll provider instead. If utilizing an outside provider, districts should ensure that the expense account structure for the employee's budget spread in the third-party application is consistent with the expense account structure established within Accounting.

Import Budget Preparation Data into a Budget Projection Module (Personnel to Accounting)

Accounting may include a budget projection module designed specifically to assist school districts with next year's budget preparation. This module includes a function allowing for the import of data (either from Personnel or a third-party application such as Microsoft Excel). This Projected Salary Data File (with the use of unique position codes, the system will automatically project, based on your district's settled contract information, the total amount needed for each salary expense account).

Additional Benefit:

- Import the Projected Salary Data into the Accounting's Budget Projection Module (all employee names and salaries that comprise the projected total will be detailed for each expense account).

Bidding to Budget Transfer

(Third-Party Bidding Software to Accounting)

Many districts utilize outside bidding companies (such as Educational Data) to assist with the process of procuring needed supplies for the upcoming year. These bidding companies deal with the individual vendors and award the bids based on district criteria. The data received from the third-party bidding application then needs to be entered into the district's accounting software application to generate the purchase order encumbrances. Entering these purchase orders can be time consuming and labor intensive. To expedite this process, the Accounting system should be able to provide a "Bidding to Budget Transfer" function.

Automatically Update New Fiscal Year Payroll Salaries for all Employees (Personnel to Payroll)

At the beginning of each new fiscal year, salary information can be updated for all employees automatically. Districts who utilize third-party payroll applications (such as ADP) may have to manually enter in each new salary amount for every single employee. If system integration is

Section XV- Financial and Human Resource Management Systems

used this should be an automated process for those districts that utilize both Payroll and Personnel applications. Personnel provides the ability to maintain historic, current and future year salary information, allowing Payroll to access this data when it is time to update individual employee salaries.

Synchronize Contracted Salaries

This function would update the “Salary” field with employees’ total calculated salary amounts from Personnel.

Print Sick/Personal/Vacation Day Balances on Employee Check Stubs (Personnel to Payroll)

Districts routinely provide employees with their balance of contract days throughout the year. One method to provide this information is to generate a hard copy report (which can take some time to print and distribute to each and every employee). Districts that utilize system integration have the ability to streamline this process by synchronizing this information between the two applications, allowing the balance of contract days to be printed directly on the employee’s check stub in Payroll.

Synchronize Contract Days Remaining

(AESOP or SUBFINDER Systems to Personnel)

Many districts take advantage of utilizing outside automated substitute placement systems (such as AESOP or SUBFINDER). These systems provide on-line solutions for absence tracking and substitute placement.

Entering the district’s daily attendance and substitute information can be time consuming and labor intensive. System integration should be able to import attendance records, which automatically generates employee attendance records within Personnel from your AESOP or SUBFINDER file, reducing the need to manually enter this information in. This function is available to all districts who utilize either the AESOP or SUBFINDER systems.

Key benefits include increasing the district’s efficiency in: 1.) filling teacher absences with substitute teachers, and 2.) automating the attendance data entry process. For those districts whose attendance is not entered on a daily basis (due to work overloads or staff absences), integration between the two applications aides districts with keeping their attendance current and up-to-date, providing school administrators access to accurate and reliable absence information on a timely basis.

Section XV- Financial and Human Resource Management Systems

Implement Position Control Codes or Numbers (PCN), and Automatically Update Position Control Budget Spread Information (Payroll to Personnel)

Utilizing a synchronized Personnel and Payroll applications give the ability to implement position control codes, as well as automatically update position control budget spread information as necessary. Position Control Codes or Numbers (PCNs) represent distinct, board-approved, contracted job positions. The budget spread for each position is defined, providing a powerful in-house management and budgeting tool. Key benefits of utilizing PCNs include features that allow your district to:

Validate current year budget appropriations against Personnel contracted salaries, by account.

Present salary projection analysis to the board to assist with budget projection for the next fiscal year.

Track and project the district's vacant positions, allowing for more accurate budget projections.

Import future year salary data directly into Accounting's Budget Projection Module.

Utilize employee budget spread information from Payroll to generate PCN in Personnel.

In short, a unique code is created to represent each board-approved contracted position within your district. These codes are referred to PCNs. The budget spread is attached to these codes, telling the system which account(s) the position is to be paid from. As the positions are filled, the corresponding PCN is linked to the employee who is currently filling the position. PCNs that are not linked to any employees represent vacant positions. For example, if your district has five board-approved positions for high school math teachers, you would establish five PCNs to represent the five separate positions.

PCNs are independent of employee records. Each PCN represents a separate position within the district, not the employee who fills it at any particular time. Thus, if an employee leaves a position and the position remains open, the PCN remains active in the system representing a vacant position to be filled. Once an employee is hired for that position, the vacant PCN is then assigned to that person.

Vacant PCNs provide an area where a projected estimated salary amount may be entered, providing the district with the ability to budget for positions that are expected to be filled. When a PCN is linked to an employee record, the calculated salary for that employee overrides the vacant salary amount entered for the PCN. As PCNs represent positions within the district, they are only added or deleted when a job position itself is either created or phased out.

Section XV- Financial and Human Resource Management Systems

Meaningful vs. Non-Meaningful PCNs

Each PCN must be unique and can be up to 20 characters or digits. A PCN can either be a random string of numbers with no meaning attached to it – like a PO number – or it can be a string containing meaningful segments – like an expense account number.

Meaningful PCNs are critical for position control, as they allow the positions they represent to be more easily identified. They are also easier to relate to when using the PCN associated reports.

Non-meaningful PCNs are a random string of numbers with no meaning attached to it. Position control is more difficult, as is using the related reports.

WHAT A SBA SHOULD DO....TO IMPLEMENT 6A:23A-6.7?

1. Do we need to comply given district budget or populace?
2. Look at current systems utilized (i.e. fund accounting, payroll and personnel) for integration or expansion.
3. Define needs-are systems in place fully utilized? Is training necessary to implement system capabilities? Is there no integration in place?
4. If utilizing multi modules (systems) i.e. ADP payroll, Microsoft Excel position control, outside fund accounting module....can they be integrated? If so, have approval for utilization been obtained from the ESC?
5. Does the system..... (Fund accounting, personnel, and payroll) currently being utilized sufficiently meets the requirements of 6A:23A-6.7? If so, has approval been obtained from the ESC?
6. If not able to expand current systems for appropriate utilization, is there another district or county organization that can accommodate needs? (Remember to check with the ESC for potential providers)
7. What expenditures are available to extend to the full integration of systems (ERP)? Does the additional cost add directly to the districts administrative limits or can the additional cost be shifted to an outside agency (i.e. bank payment for services)?

Section XV- Financial and Human Resource Management Systems

8. What are the “quiet” costs of system integration?
 - New equipment (servers, wiring, computers)
 - Supplies (paper, checks, ink and associated copy costs)
 - Staffing (training and number to respond to necessary reporting, daily updates, etc.)
 - Facilities (is there room for all necessary equipment, supplies and staff?)

9. If it is necessary to research outside ERP systems, are they able to give you a BETA for 2009/2010? Are they state approved for compliance?
 - In looking at ERP systems, does the potential system allow for control over access and audit trail for access to all system components?
 - Does the anticipated ERP system allow for appropriate updates for all systems within or outside pursuant to DOE requirements?
 - Has the proposed ERP system been used in full by NJASBO members within the last three (3) years?
 - Is the proposed ERP system harmonious to NJSA and NJAC requirements
 - Does the proposed ERP system allow for staff training, support updates, appropriate back up of information and back up for start up?

Determination

Once the aforementioned is reviewed and the priorities or direction of the district is established the SBA in conjunction with the CSA should approach the Board of Education with their findings. The Board of Education should prior to determination, analyze the recommendation for ERP compliance, but make sure that all changes in procedure and process also adhere to Board of Education policy, maintain appropriate user authority and user access and district wide protocols for accessibility.

Internal Controls

The Board of Education should establish internal control procedures for all systems (fund accounting, personnel and payroll) regardless of true system integration or multi systems (many modules) integration. No one individual should have control within all systems. Annual review should be done via an internal control check. (See attached sample document- which should be completed in-house and by the district auditor independently).

Title: FREE AND REDUCED LUNCH APPLICATIONS

Procedure:

The Free and Reduced Meal applications are sent to us electronically by the state. It is mandated that we use this form without change. The BOE Business Office is responsible for getting the forms distributed directly to the parent/guardian prior to school starting. One application per household is mailed prior to the start of the school year. All students who live in the same household can be entered on one application. Once completed by the parent/guardian all applications can be returned to the schools or directly to the board office for processing. The bookkeeper sends home a meal status notification letter to all applicants. Applications are kept at a central location: Board Office. Using Meal Time for processing the application, the eligibility determination is downloaded to each student's file in Genesis and to the Point of Sale system. The appropriate staff at each school can view this information via Genesis. Verification of qualification for free and reduced meals is the responsibility of the BOE Business Office Bookkeeper. Verification of applications must be completed in November. Applications continue to be processed throughout the school year.

Elementary Schools Procedures

The cafeterias have computerized point of sale cash registers. After the student identifies himself with a Pin number, the picture of the student comes up on the screen along with the meal status code and any balance the student may have.

All money for meals is collected in the classrooms. The money is put into an envelope which is already labeled with the students name, teacher name, room number and grade, which is supplied by the school secretary. The envelopes are forwarded by the teacher to the main office where the cafeteria worker gets them and applies the money to the appropriate student account via the Point of Sale. At lunch time the student puts their PIN number into the cash register via PIN pad for items purchased. No money is exchanged at lunch time. At the end of each day the cafeteria worker counts out all money received and posts it to the point of sale. The physical cash received should match the money posted to student's accounts. At the end of each day the cafeteria worker prints out a daily sales report and sends it to the Food Service office. Any problems or questions during the course of the day are to go to the Bookkeeper in the Food Service department. Any discrepancies are to be called into the Bookkeeper prior to closing out for the day.

Middle School and High School

In these two schools the students deposit money directly with the cashier while they are purchasing meals. The meal eligibility status is on the point of sale screen, reducing overt identification. All meal statuses are shown by a symbol. Students have the option of depositing as much money as they wish in their account. All deposits and purchases go thru the cashier during lunch time.

At the end of the day the manager at the Jr. High school and the Bookkeeper at the High School print out the daily sales reports. The cashiers can view these numbers prior to printing to verify cash received against sales. Any problems are referred to the manager at the Jr. High school and the Bookkeeper at the High School. The cashiers need to advise their managers of any money discrepancies.
